

# A Reason to Celebrate

UniFest '09, which was held on 15th January 2009, was a student celebration of **University College Sedaya International's (UCSI)** recent conferment of **University** status. On 6th October last year, **University College Sedaya International** became **UCSI University**. Students of the University immediately put into motion an event to celebrate this new status. Four months ago, **UCSI University's Mass Communications** students took up the task of promotion and advertising for the event. The event itself was organized by UCSI University's Student Council body and **The Hive**, a **UCSI University** student society which aims to promote an appreciation for local and independent music. Highlights of the event included a stellar performance by renowned local singer **Juwita Suwito**, an energetic performance by **Liang** and unique tunes from Melbourne-based band, **Scene at the Movies**. Heartiest congratulations from **MYC!**
