

UCSI students to hold charity fair for S'wak Heart Foundation

KUCHING: Students from the Hospitality Management, Event and Tourism Management, and Commerce degree programmes of UCSI university will hold a UCSI Charity Fair for Sarawak Heart Foundation (SHF) this Saturday, 28 March at Transformation Centre Berhad (Koperasi Hijau Building at Jalan Setia Raja, Stutong).

The event to support the heart foundation is open to the public with coupons priced at RM10 each.

UCSI initiated this Charity Fair in view of the fact that there is an increase in the number of heart-related diseases among Sarawakians, said project manager Nor Warda Abdul Nasser in a recent press release. Nor added that they are supporting SHF because it is a non-profit organisation that helps to educate the public on the various methods of preventing heart-related diseases.

Besides, Nor continued, by getting the students to be involved in organising the charity fair, they would learn the meaning and the importance of community service, and at the same time they get a chance to practise the soft skills like event management, budgeting, and communicating with stakeholders; which would go a long way in giving students the edge they need upon graduating.

For further information, call Nor Warda at 016-8922155.
