

## Basketball Game

The rising stars of UCSI University's basketball team showed what they were made of in a game against the Westport Malaysia Dragons who currently led the 2015/16 ASEAN Basketball League that was hosted by the university at their campus in Kuala Lumpur. While the final score was 56-82 in favour of the visitors, there were no losers, as team UCSI's basketball coach Vitalii Goncharenko noted that the varsity team gained some insightful experiences against Malaysia's best basketball team. Under the guidance of Goncharenko, who had been a professional basketball player in the Ukrainian Basketball Super League at the height of his career, UCSI's basketball team has grown and flourished. It was the first time the Dragons had a varsity team as a sparring partner and the Dragons' presence on campus was a boost to UCSI's efforts to promote sports and holistic learning.
