

UCSI University

25 years

of Creating Experiences

**Welcome, and thank you for joining us
on this day of fun and celebration!**

UCSI University celebrated its 25th birthday last week on May 13. As the University's founder, this day means a lot to me. It is also significant for the rest of the University's staff, students and alumni who have returned to commemorate another milestone on this long, but worthwhile journey we have travelled together.

As part of our rolling Silver Jubilee celebrations from January 2011 to May 2012, we would like to share our joy with the larger community around us – thus the **UCSI University Carnival with RICOH**, a community event which is open to people of all ages. This will be an event-packed Saturday with games, performances, food, talks and give-aways. It is also a celebration of the multicultural experiences from the University's three campuses throughout Malaysia and will feature the unique culture of each of them, including a replica of an Iban longhouse, and crafts, dances, traditional games and cooking demonstrations from Sarawak and Terengganu. We hope to see you at the North Wing of our Kuala Lumpur Campus which has been transformed into a carnival ground with both indoor and outdoor games planned for the entire family.

For the youth, an open air concert will be held on the hillside of our South Wing Saturday evening. The **UCSI University Unifest** concert this year is themed **"Rise of Rhythm"**. It features many talented local artists who love music and who enjoy sharing their music with college and university students. This music festival is an open event which welcomes all Malaysian university students and youth, including international students throughout Malaysia, to celebrate the success of UCSI University thus far.

I would like to thank our many sponsors who have come forward to help us organise this carnival and university festival. Giving everyone a fun-filled day together is our way of saying **"THANK YOU"** to all who have supported us to be where we are today.

Come, celebrate with us!

May 21, 2011 (Saturday)

Dato' Peter T.S. Ng
 Founder - UCSI University
 Chairman - UCSI Group
