## ABSTRACT

This project describes and explains step by step to develop BlackBerry applications. The application will read RSS feed from UCSI website. It will download the feed from two different feeds: UCSI Sarawak and UCSI Kuala Lumpur campus. Developing BlackBerry application uses Java 2 Micro Edition (J2ME) programming language and the tools used in this project is BlackBerry JDE (Java Development Environment) version 4.7 that can be downloaded from the official website. Testing conducted in virtual environment using BlackBerry Bold 9000 simulator version 5.0.0.411 with East Asia language pack and simulator version 5.0.0.592 generic.
