

SCHOOL OF ENGINEERING

RFID FOR EATERY INDUSTRY

FINAL REPORT

STUDENT'S NAME: **TEE HOCK LEONG**

STUDENT'S ID: **99309734**

MAJOR: **B.ENG (HONS) ELECTRICAL & ELECTRONIC
ENGINEERING**

FIRST SUPERVISOR'S NAME: **MS. SHAMINI PILLAY**

SECOND SUPERVISOR'S NAME: **MR. RODNEY TAN HEAN GAY**

PROJECT'S COORDINATOR: **DR. KHEDR M. M. ABOHASSAN**

JANUARY – AUGUST 2005

ABSTRACT

This project is design and implements a new application of RFID. This system is developed to store and provides food information such as food name, price, nutritional value which will be display and showed to customers. The project demonstrates how RFID can be used to enhance and fulfills needs of consumers. Ideas are developed to illustrate how, with future hardware and software evaluation the system might be expanded to become a realistic commercial proposition.
