# UCSI offers GCE A-Level programme

**KUCHING:** With 10 years experience in conducting the Edexcel GCE A-Level programme, UCSI University Sarawak Campus has consistently remained as the leading GCE A-Level provider in Sarawak.

Over the past 10 years, the University has produced hundreds of alumni pursuing degree programmes locally as well as at universities all over the world and most of them have completed their studies and are now rendering their service as professionals such as doctors, engineers and pharmacists.

Instructors hold important roles in inspiring and influencing students' achievements. The A-Level instructors of UCSI University Sarawak Campus believe in long term learning of the content and development of skills such as communication, collaboration and coordination.

Most of the instructors at UCSI University are resourceful and experienced in lecturing as some of them have years of pedagogy training prior to teaching GCE A-Level.

Madam Mukvinder Sandhu, the Pre-U Centre Head of UCSI University Sarawak Campus, with experience in lecturing for more than nine years believes in herself by involving in various research projects along with her fellow colleagues. She is currently doing research on topic which is related closely to her teaching area which is Environmental Chemistry.

In fact, this is the culture adopted by all staff at the Pre-U Centre

as they all believe in continually updating knowledge on current issues which they share directly with their students.

Most of the other lecturers are also very experienced, as some of them have more than five years experience in giving lecture. Academic staff also attend workshops organised by Edexcel as well as participate in different online forums and use various innovative teaching methods to deliver their subject areas.

Indeed, one unique aspect at the Pre-U Centre is the personalized attention that students get.

Besides the dedication to their students, the instructors also practice close interaction with them by conducting group discussions and vigorous training on past year questions before the exams.

Students can seek for guidance without fear of the unknown through these discussions. Full of passion in guiding the students, the instructors are always ready to conduct extra classes whenever it is necessary and share their knowledge with the students.

Improvement classes are conducted regularly, on a one-to-one basis to assist students who may struggle with certain areas of the subject matter. During these sessions, instructors will focus on the areas students are having difficulties and extra coaching will be given to them.

All these are evident in the excellent track record, UCSI University Sarawak Campus has always maintained a very high passing rate every year with high

percentage of students scoring straight As in their GCE A-Level examinations.

UCSI University Sarawak Campus houses the Faculty of Hospitality and Tourism Management and Pre-U Centre. This campus provides niche academic programmes to sharpen its student management skills and teamwork as well as trained them in the area of hospitality and tourism.

The Pre-U Centre, providing the GCE A-Level and foundation programmes serves as pathway to degree programmes in UCSI University Campuses in Malaysia and its education partners overseas.

The enrolment for GCE A-Levels March intake is now in progress. Students and parents who wish to find out more about the GCE A-Level programme are invited to visit the university's Pre-U Day on 18 and 19 February at its Sarawak Campus located at Jalan Tun Jugah here from 10.00am until 5.00pm.

Visitors are welcomed to tour the campus to view the laboratory and other facilities of the Pre-U Centre. Special preview of the programme will be available during these two days. Students and parents are not only given the opportunity to interact with the course counsellor, but also to meet up with the professional academic staff to learn in depth about the programme. For more information on the Preview Day, please contact (082) 455 255 or email [askswk@ucsi.edu.my](mailto:askswk@ucsi.edu.my).
