UCSI continues to lead the GCE A-Levels pack in state

KUCHING: With 10 years' experiences in conducting the Edexcel GCE A-Levels programme, UCSI University Sarawak Campus has consistently remained the leading GCE A-Levels provider in Sarawak.

Over the past 10 years, the University has produced hundreds of alumni pursuing degree programmes locally as well as at universities globally and most of them have completed their studies and are now rendering their service as professionals.

Instructors play an important role in inspiring and influencing students' achievements.

The A-Levels instructors of UCSI University Sarawak Campus believe in long term learning of content and the development of skills such as communication, collaboration and coordination.

Most of the instructors at UCSI University are resourceful and experienced in lecturing as some have years of pedagogy training prior to teaching GCE A-Levels.

Mukvinder Sandhu, the Pre-U Centre head of UCSI University Sarawak Campus, with experience in lecturing for more than 9 years believes in involving herself in various research projects along with her fellow colleagues.

She is currently doing research on topics closely related to her teaching, Environmental Chemistry. In fact, this is the culture adopted by all staff at the

Pre-U Centre as they all believe in continually updating their knowledge on current issues that they then share with their students.

Most of the lecturers here are also very experienced, with some of them having more than five years experiences in giving lectures.

Academic staff also attend workshops organised by Edexcel as well as participate in different online forums and use various innovative teaching methods to deliver their subjects.

Indeed, a unique aspect at the Pre-U Centre is the personalised attention that students get.

Besides the dedication to their students, instructors also practice close interaction with them by conducting group discussions and vigorous training on past year questions before the exams. Students can seek for guidance through these discussions.

Full of passion in guiding the students, the instructors are always ready to conduct extra classes whenever necessary to share their knowledge with the students.

Improvement classes are conducted regularly, on a one-to-one basis to assist students who may be struggling in certain areas of the subject matter.

During these sessions, instructors will focus on areas students are having difficulties with and extra coaching will be given.

All this is evident in UCSI

University Sarawak Campus' excellent track record, having always maintained a very high passing rate every year with high percentage of students scoring straight As in their GCE A-Levels examinations.

UCSI University Sarawak Campus houses the Faculty of Hospitality and Tourism Management and Pre-U Centre.

This campus provides niche academic programmes to sharpen its students' management skills and teamwork as well as to train them in the area of hospitality and tourism.

The Pre-U Centre, providing the GCE A-Levels and foundation programmes serves as pathway to degree programmes in UCSI University Campuses in Malaysia and its education partners overseas.

The enrolment for GCE A-Levels March intake is now in progress. Students and parents who wish to find out more about the GCE A-Levels programme are invited to visit the university's Pre-U Day on Feb 18 and 19 at its Sarawak Campus located at Jalan Tun Jugah in Kuching from 10am – 5pm.

Visitors are welcomed to tour the campus to view the laboratory and other facilities of the Pre-U Centre. Special preview of the programme will be available during these two days. For more information on the Preview Day, please contact +6082- 455 255 or email askswk@ucsi.edu.my.
