

UCSI roadshow in KK on July 21

KOTA KINABALU: Recently distinguished as Malaysia's best private university in the QS World University Rankings 2019, UCSI University will be carrying out its own roadshow in Kota Kinabalu on July 21.

During the programme, aspiring doctors and pharmacists will be able to discover more about the university's high impact arrangements with renowned universities such as Harvard, Chicago, Melbourne and Royal College of Physicians Edinburgh.

It would also give those interested to understand more on the UCSI's scholarship programmes as well as grants that waive up to 25 per cent off the tuition fee.

Since 2014, those enrolled in the university and gained the top medical students in the university will be selected for a year-long research programme with world's best minds like Professor Dr Gordon Williams from Harvard University.

Medical students will be able to enjoy the option

to earn the Bachelor Medical Sciences as a second degree from Melbourne University if they spend a five-year medical degree programme in Australia.

For those who decide to remain in Malaysia, live lectures are regularly carried out with the Royal College of Physicians of Edinburgh which gives the students exposure on latest updates, technology and best practises.

Best pharmacy students will also have the chance to be selected by the University of Chicago to advance science and enjoy numerous avenue to practise with some 130 partners in community and industrial pharmacy as well as four major hospitals.

Aside from pharmacy and medical, there are several other courses that UCSI offers such as engineering, business, bio-science, architecture, hospitality, liberal arts, information technology, music and design, among other fields.

Those interested may contact Justine (UCSI) at 014-661 7660, Lily (GES KK) at 016-889 5218 or Chong (GES Sandakan) at 019-853 0013.
